

M8xi

... an amplifier that performs superbly.

- ... the **sound stage** stays **rock steady** even at high volume.
- ... a **very high power** all-analogue amplifier.
- ... the M8xi is very **strongly built** and **superbly finished**.
- ... **speed and control** (aka pace and timing), great insight and sense of restrained power that came from **forceful dynamics**.
- ... vocals were **sparklingly fresh** and **clean** centre stage: it was all eye popping and there was an underlying **sense of power**...
- ... **Enormously tight and controlled**, yet with **powerful punch** when delivering drums.

OUTSTANDING - amongst the best.
